SUMMARY

Computer Science undergraduate with hands on experience in **Java**, **Spring Boot**, **REST APIs**, **SQL**, and **React.js**. Skilled in **building secure and scalable full stack applications** with strong problem solving and software engineering fundamentals. Eager to contribute to **technology consulting and enterprise application development projects**.

TECHNICAL SKILLS

Programming Languages: Java, SQL

Frameworks & Libraries: Spring Boot, Spring Data JPA, Hibernate, React.js

Database & Tools: MySQL, PostgreSQL, Git, GitHub, Maven, Postman, IntelliJ IDEA, VS Code

Web Technologies: HTML5, CSS3, RESTful APIs

Cloud & Deployment: Render, Git-based deployment workflows

Core Computer Science: OOPS, DBMS, Operating Systems, Data Structures and algorithm

PROJECTS

• UniFlat – Student Rental Platform

[📁 GitHub](#)

Java, Spring Boot, Spring Security, JWT, React.js, Tailwind CSS, MySQL, Hibernate, Spring Data JPA

- Developed a **full-stack web application** that allows students to search and connect with property owners for rental services.
- Implemented **JWT Authentication**, **role-based authorisation**, and **BCrypt** password encryption for secure access management.
- Designed **RESTful APIs** for user management, property listing, favorites, and inquiry workflows.
- Integrated **React.js** frontend with backend APIs using **Axios** and followed a layered architecture for maintainability.
- Collaborated on designing a **modular and scalable application** structure suitable for enterprise-style development.

• Desktop-Based Employee Management System

Oct 2025 – Nov 2025

Java, Swing, JDBC, MySQL

- Built an offline enterprise desktop application using **Java Swing** to perform secure **CRUD operations** for employee record management.
- Connected the application to a **MySQL** database using **JDBC**, ensuring reliable data storage and retrieval.
- Implemented regex-based input validation and centralized exception handling to improve application reliability and maintain data integrity.
- Designed an **intuitive graphical user interface (GUI)** with navigation menus and input forms, enhancing usability and simplifying employee management tasks.
- **Optimized SQL queries** for employee search and record retrieval, improving **data access efficiency and reducing response time**.

EDUCATION

Techno Main Salt Lake

Kolkata, India

B.Tech in Computer Science & Engineering (Data Science) – CGPA: 7.94/10

2023 – 2027

Class XII (JAC Board)

Jharkhand, India

Senior Secondary (12th) — Percentage: 88.2%

2022

CERTIFICATIONS & ACHIEVEMENTS

- Completed Coding Ninjas **Ninja Dominator Program**, covering Data Structures, Algorithms, and Problem Solving.
- Naukri Young Turks 2025 — **96 Percentile**
- Completed **Java Programming Fundamentals** certification from **Simplilearn**
- Solved **200+ DSA problems** on LeetCode and GeeksForGeeks
